**SYNCHRONIZED SKATING COACH
RESUMÉ**

(updated: September 23, 2010)

Program goal:

To develop a synchronized skating program which will:

- Include teams of all levels and ages – both competitive and developmental.
- Foster good sportsmanship and positive attitude and work ethic among skaters
- Encourage skaters to further develop their skating skills while learning team skills
- Develop other qualified synchronized skating coaches
- Develop a good working relationship with all MFSC Coaches
- Develop a good working relationship with other Synchro Coaches around the country
- Be a positive role model for skaters, coaches, and parents

Personal Philosophy:

Synchronized skating should provide a positive “team” experience, be fun, and yet challenge our skaters to continually improve both their interpersonal skills and their skating skills. We need to continually strive to make synch skating affordable and flexible enough to fit into the modern lives of our skaters.

Personal Goals:

To help the MFSC synchronized skating program evolve

To make synchronized skating available to all skaters who would like to skate on a team

To help teams accomplish their goals, whether competing at a National level or simply skating for fun

To continually update and increase my knowledge/skills associated with synchronized skating.

Profile:

- [MFSC Synchronized Skating Program Director](#)
- [PSA Category A: professional coach of qualifying levels of competition skaters, 2010-11](#)
