**SYNCHRONIZED SKATING COACH
RESUMÉ**

(updated: June 28, 2006)

Personal Goals:

To continually update and increase my knowledge/skills associated with synchronized skating.

To help the MFSC Synchronized skating program evolve

To develop an understanding/awareness of skating and its varied roles in national, regional and local communities

Program goal:

To develop a synchronized skating program which will:

- Include teams of all levels and ages – both competitive and developmental.
- Foster good sportsmanship and positive attitude and work ethic among skaters
- Encourage skaters to further develop their skating skills while learning team skills
- Develop other qualified synchronized skating coaches
- Develop a good working relationship with all MFSC Coaches
- Be a positive role model for other clubs

Personal Philosophy:

Synchronized skating should provide a positive “team” experience, be fun, and yet challenge our skaters to continually improve both their interpersonal skills and their skating skills. We need to continually strive to make synch skating affordable and flexible enough to fit into the modern lives of our skaters.

Profile:

- **PSA Rated – Certified Synchronized Team Skating Instructor**
- **Level II PSA Synchronized Skating Coach ranking**
